### About Nejrabian Group

For over a decade, the Nejrabian Group has lived up to its standards both regionally and internationally by offering exceptional services in various segments such as Logistics, short and long term Vehicle Renting, Fleet Management, Fuel Supplies, and Transportation Services with addition to company activities such as armored and soft skinned Vehicle Leasing Services, Military Equipment Supplies, and Import and Exports across the globe.

Nejrabian Group Companies operations worldwide are overseen out of its Dubai headquarters, from where the different group companies' activities are coordinated across the globe, from Afghanistan to the USA.

Progressing into a prominent International company along with earning an outstanding reputation among the major International companies, Nejrabian Group Companies is capable of incorporating superior understanding in Downstream and Midstream, Project Management and Quality Supply Chain Logistics while accommodating to both hostile and challenging surroundings worldwide.

## ABOUT US » Message From President

---

“ What we have undertaken to achieve through the creation of Nejrabian Group Companies is to sustain and promote the values each particular company that make up the Nejrabian Portfolio. As a dedicated leader in Afghanistan’s Security Solutions Market, we aspire a superiority standard and set the limit for quality transportation services to all clients on a global scale.

I strongly believe in establishing close relationships with our clients and recognize the significant element that helps us stimulate and develop further solutions. Successful developments are accomplished through our team of fit professionals that work hard to deliver client satisfaction, and that is the key to our success.

We develop our key internal operations to guarantee a consistent and positive practice both for our clients as well as our employees. I would like to express my gratitude and give thanks to all who have strengthened Nejrabian Group and aided in the growth of its development. Today, Nejrabian is defined by its good standing, reputation and its exceptional class of service extended both locally and internationally.

I believe and have faith in what we do and see a colossal scope of growth as we progress together, effective as one. We will continue to invest in our staff along with and our clients above all while we remain committed to creating value throughout the Nejrabian Group of companies. ”

**ABDUL HADI NEJRABI**

PRESIDENT

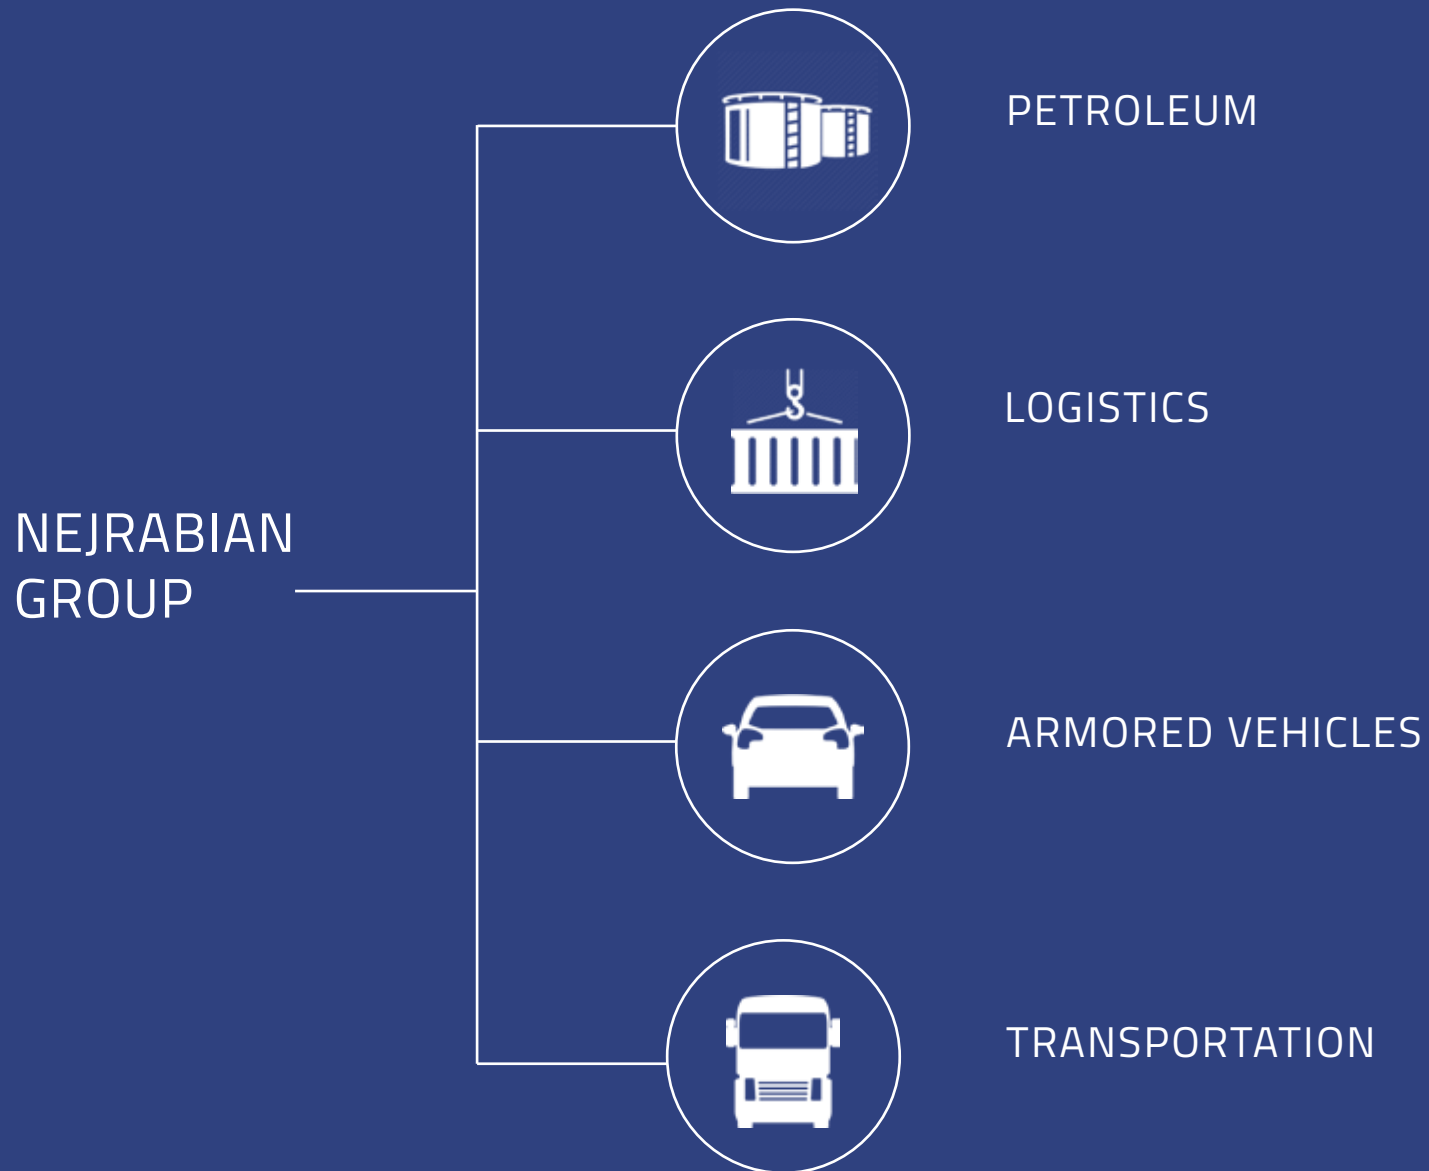

## Our Mission

At Nejrabian Group Companies, we are committed to leadership within all our services, that is why our true colors lie within the bond we pledge to build, maintain, and grow with our partners and customers. We pledge to offer grade-a service with quality and standard within all our services world-wide. With various facilities across the globe, we operate together under one umbrella to grow, while remaining dominant in our certified production.

## Our Vision

Our Vision is simple “ **Excel & Achieve Excellence in all we accomplish** ”

at Nejrabian, we care to provide you with innovative and reliable transportation solutions that exceed the world’s growing demand of transportation services.

## Petroleum

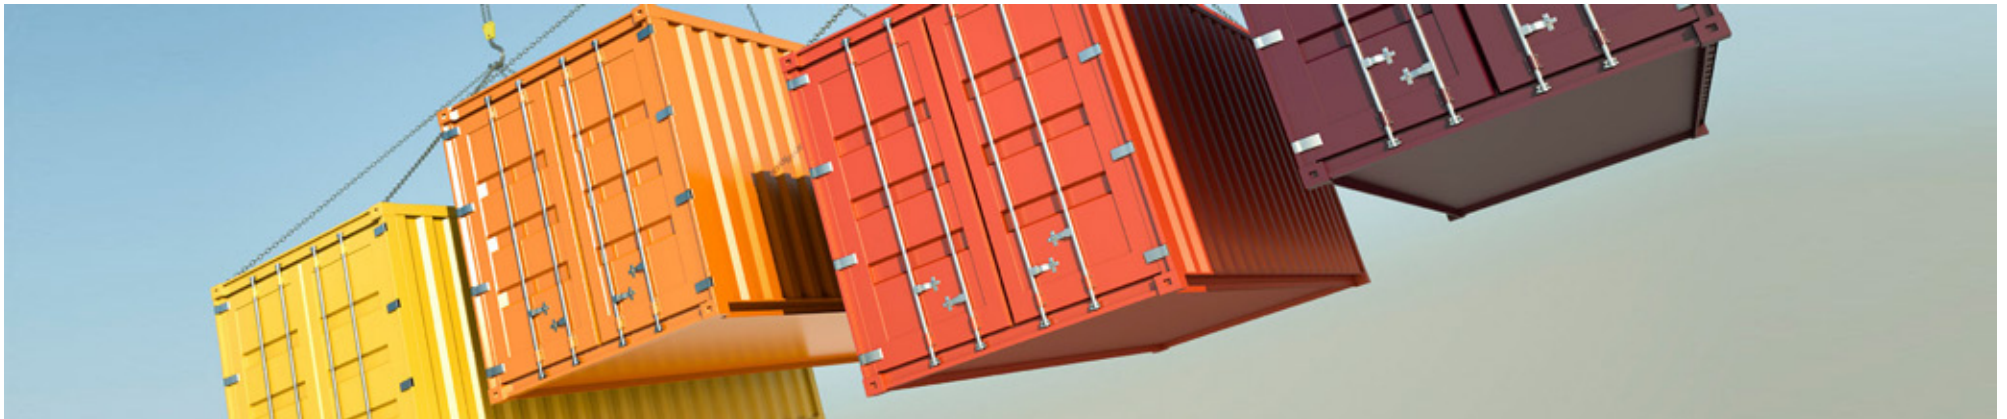

The Petroleum Division of Nejrabian Group offers the full range of oil exploration and production services in Afghanistan. Our experienced technical team uses world-class heavy-oil extraction and recovery techniques with a commitment to responsible development of petroleum resources.

Nejrabian's strategy is to capitalize on our strengths and achieve our vision to become Afghanistan's leading independent exploration, development and production company in the petroleum sector. Our professional team is focusing on primary drilling, expanding product margins, and rapidly building a diverse portfolio of petroleum assets.

All our operations in the petroleum business are conducted with great emphasis on health, safety, environmental and social responsibility, with all these factors being an integral part of our company's culture. Nejrabian is also committed to giving back to the communities where we operate through corporate social responsibility initiatives.

## Logistics

Nejrabian offers logistics services, including Downstream, Midstream, Project Management and Quality Supply Chain Logistics. These logistics services are designed to accommodate the unique and challenging environment in the region.

Our highly qualified and skilled logistics team has a wealth of experience that has made Nejrabian one of the leading supply chain operators in Afghanistan, playing an important role in the country's reconstruction.

Our logistics team has the unique ability of looking at logistics from strategic, tactical and operational perspectives. The team can put together a solution that works to your advantage, integrating all logistics activities with other functions including marketing, sales, manufacturing, finance, and information technology.

## Transportation

Nejrabian is a full service transportation company operating throughout Afghanistan, maintaining the highest standards of service and customer satisfaction.

Nejrabian utilizes several types of diverse, modern heavy machinery and heavy transportation vehicles that operate around the clock, with terminal locations throughout the country. Over the years, we have taken on every challenge and delivered maximum satisfaction to our customers, however difficult the scenario. Our transportation experts have exceptional knowledge and capabilities, operating to the highest standards of quality and professionalism. We offer domestic and cross-border transportation services with a wide range of freight management services that can handle any capability and capacity from light loads to specialized loads.

## ABOUT US » Armored Vehicles

---

Nejrabian specializes in the sale and lease of armored and soft-skinned vehicles, offering the most comprehensive line-up of such vehicles available in Afghanistan.

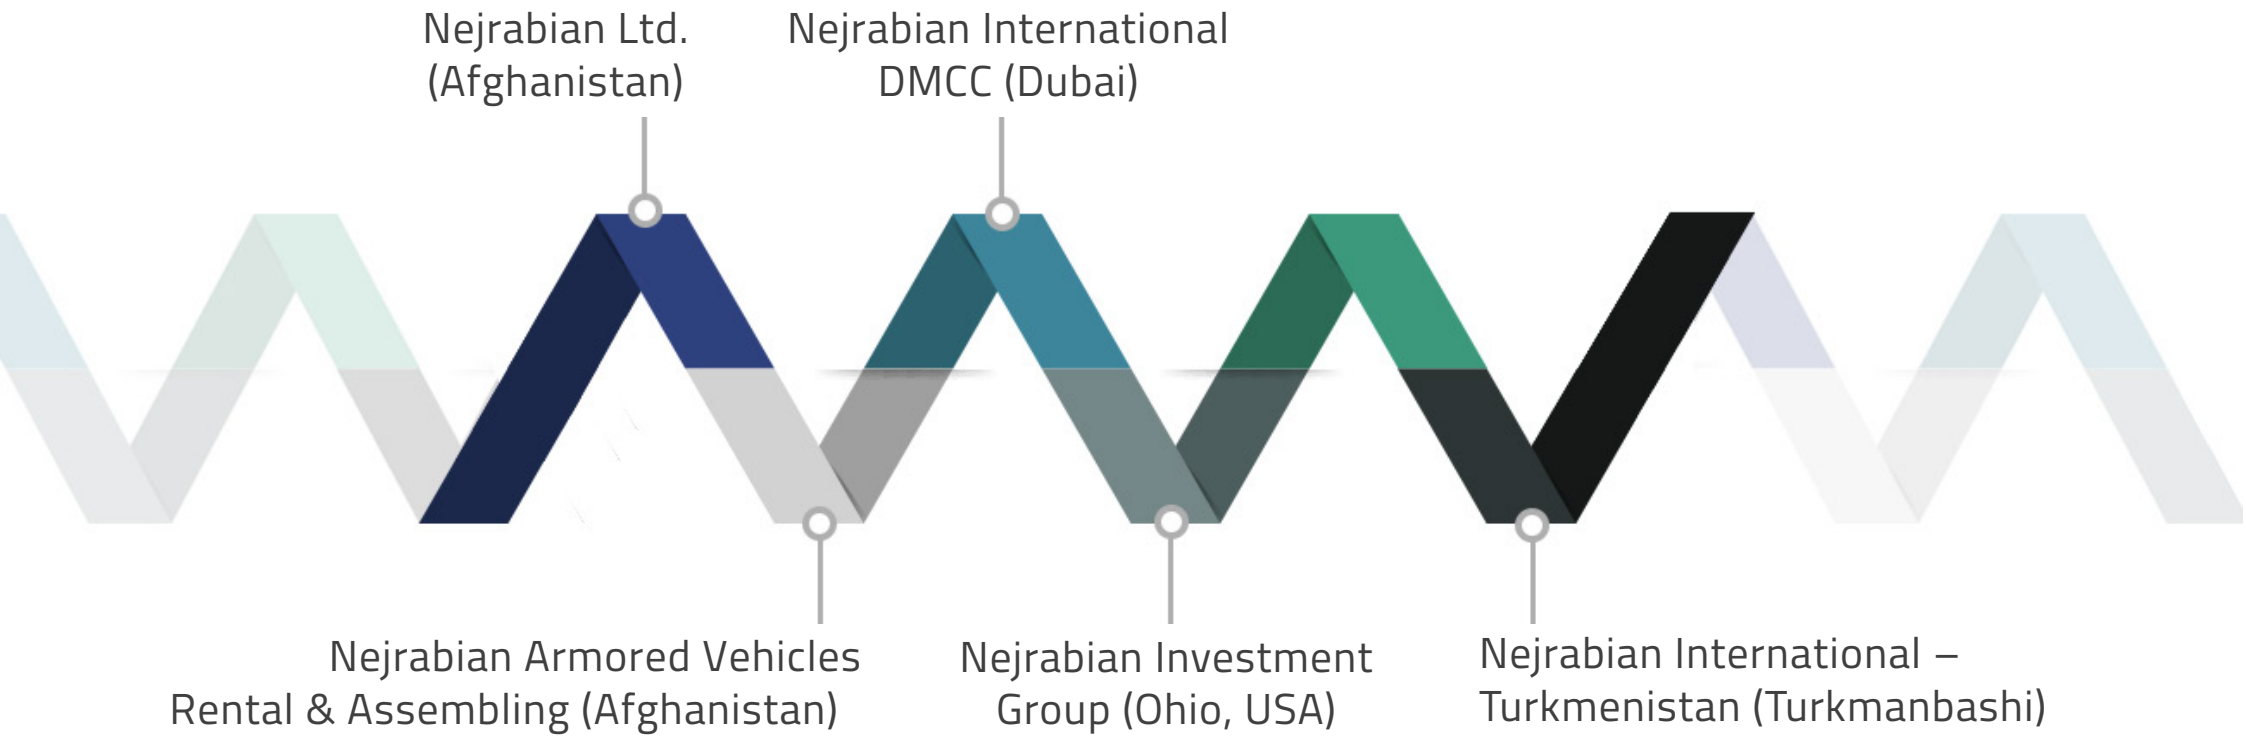

### Armored Vehicles

The range of vehicles includes small cars, executive SUVs, luxury sedans, special purpose military vehicles and personnel carriers.

All our armored vehicles feature world-class technologies and security measures to address all possible threats that may arise in a high-risk environment. Whether it is a daily rental or a long-term lease or an entire fleet of vehicles, our customers benefit from a tailor-made solution that meets their specific needs and budgets.

**NEJRABIAN LTD. (AFGHANISTAN)**

## GROUP OF COMPANIES

---

### NEJRABIAN INTERNATIONAL DMCC (DUBAI)

Nejrabian International DMCC is registered in Dubai and serves as a holding company that supports all group companies worldwide. The Nejrabian Group has diversified interests in logistics, petroleum products distribution, oil and gas services, short and long term vehicle leasing, fleet management, fuel supplies, and transportation services. Other business interests include armored vehicle leasing, supply of military equipment, as well as imports and exports across the globe.

Nejrabian International DMCC is staffed by a team of exceptional professionals who operate to high standards of corporate governance and social responsibility, while protecting the interests of all stakeholders.

## GROUP OF COMPANIES

---

### NEJRABIAN ARMORED VEHICLES RENTAL & ASSEMBLING (AFGHANISTAN)

Nejrabian Armored Vehicles Rental and Assembling Company is a private company based in Afghanistan, holding a special license for dealing in armored vehicles from the Ministry of Interior of the Islamic Republic of Afghanistan. The company focuses on importing armored vehicles and leasing and selling them in the local market. Armored vehicles are a critical security addition to business operations in Afghanistan. From protecting movable assets to transporting important personnel, armored vehicles are the ultimate in protection.

The company offers a wide selection of armored vehicles from trusted vehicle armoring companies. Different kinds of armored vehicles distributed by the company include B6 Armored Toyota Land Cruiser, B6 Toyota Camry & B6 Toyota Prada.

## GROUP OF COMPANIES

---

Like other group companies, Nejrabian Armored Vehicles Rental & Assembling is managed in a spirit of partnership consistent with the group's belief that all stakeholders should benefit from the business, from employees and shareholders to vendors and the community.

## OUR MISSION

At NAV, we are committed to leadership within all our services, that is why our true colors lie within the bond we pledge to build, maintain, and grow with our partners and customers. We pledge to offer grade-a service with quality and standard within all our services world-wide. With various facilities across the globe, we operate together under one umbrella to grow, while remaining dominant in our certified production.

Our armored vehicles start with industry standard specifications. By utilizing this framework, we place our clients in an armored vehicle that does not make them stick out like a sore thumb. Remaining under the radar provides an initial tier of security. From the standard consumer exterior, we build-out each armored vehicle to exceed our client needs. We put our lives behind the wheels and trust we will meet the venue; we are confident you will too.

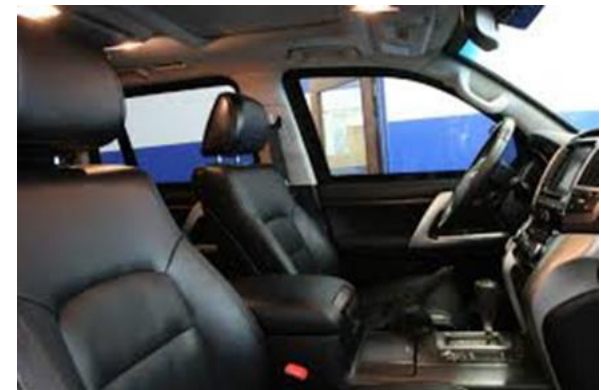

## GROUP OF COMPANIES

### ARMORED CONVERSION MODIFICATIONS

1. Five-sided armoring of passenger compartment (roof and verticals) to provide protection against 7.62x51mm M80 NATO ball ammunition, in accordance with CEN Level BR6, at zero-degree obliquity angles.
2. Floor of the vehicle is fitted with a blast protection to protect occupants against fragmentation from simultaneous detonation of 2 DM-51 German ordnance hand grenades or equivalent.
3. Vehicle's armor plates are stitch-welded using high-intensity MIG welders. The above process ensures the structural integrity is uncompromising by thermal and chemical variations of the material.
4. Ballistic steel interior frame provides overlap and backup protection for the large-surface principal impact areas such as the doors and windows. All door/window openings are overlapped.

**Some OEM vehicle features/equipment may be removed or disabled to accommodate for the installation of the armoring materials and other equipment required as a part of the armoring conversion.**

## GROUP OF COMPANIES

---

### GLASS SPECIFICATIONS

A combination of glass, polycarbonate and Mylar are bonded together using the latest technology, producing one of the finest transparent armors available while incorporating the following qualities

1. Glass thickness: 39mm
2. Anti-spall shield protecting against shattering glass.
3. Multiple impact protection.
4. Finest optical quality, Minimal distortion.
5. No de-lamination, no discoloration from UV rays.

**Some OEM vehicle features/equipment may be removed or disabled to accommodate for the installation of the armoring materials and other equipment required as a part of the armoring conversion.**

## GROUP OF COMPANIES

---

### INTERIOR SPECIFICATIONS

1. All original OEM interior panels and trim will be resized or modified and re-installed wherever possible to obtain as close to an original look as possible.
2. The cargo area of the vehicle is protected by a swing door with view glass/gun port, without disrupting the original manufacturer's appearance. The cargo area of the vehicle is protected by a swing door with view glass/gun port, without disrupting the original manufacturer's appearance.

### DOOR SPECIFICATIONS

1. Armored overlap on all doors to prevent penetration through door posts and pillars.
2. Door pillars are reinforced to accommodate the additional weight of the armored door.
3. Heavy duty door hinges, designed and manufactured for extended longevity and easy maintenance.
4. Heavy duty door travel retainers.

## GROUP OF COMPANIES

---

### ELECTRICAL SPECIFICATIONS

1. All electrical equipment standards to this vehicle are tested and modified as necessary to protect against the armoring process.
2. Any additional (optional) electric equipment installed on the vehicle shall be individually fused; all wires are loomed and clearly marked, as required by vehicle safety standards.

### STANDARD SECURITY FEATURES & ACCESSORIES

1. Hutchinson run-flat devices fitted in all vehicles' tires, including spare.
2. Steel-case fuel tank protection.
3. Vehicle battery and ECM armor protection.
4. Engine bay flank armor protection.
5. Large door frame overlaps.

## GROUP OF COMPANIES

---

6. Heavy duty door hinges, designed for extended longevity and easy maintenance.
7. Reinforced door pillars and posts, heavy duty door travel retainers.
8. Swing door with view glass and gun port (1) to be installed at rear of passenger compartment.
9. Suspension components are reinforced as necessary to compensate for additional weight of the vehicle.
10. All Mfg. manuals and written information provided.

## GROUP OF COMPANIES

### SCHEDULED AND UNSCHEDULED MAINTENANCE

As NAV attempts to achieve customer satisfaction, to do this, we have recruited and integrated highly qualified expertise in all required technical areas. Our company provides Scheduled (every month) and unscheduled (as per request by the customer) repair and maintenance services for all of our customers. Vehicles are also be equipped with the proper rims and spare tires able of supporting the vehicles up-armored weights. Upon notification of disabled vehicles, NAV will have the vehicle removed within 24 hours for repairing and NAV will provide an alternative vehicle to fill the gap of the vehicle during the repairing and maintenance period.

To render such services, the company has invested in the latest tools and service equipment. With all care and quality, these services are provided insuring reliability and ontime completion of assigned jobs. Nejrabian has its own workshop which is managed by highly skilled and qualified mechanics supervised and controlled by engineers. There are 12 mechanics and 8 mechanics helpers with 4 four engineers currently on our maintenance and service team.

Our workshop has different sections such as body and seats repair section, engine maintenance and repair section, wheel alignment and balance section, gear box and suspensions repair, maintenance section, armoring section and administrative section.

Our maintenance shop maintains a large inventory of spare parts and repair items for reliable and timely services and maintenance. We also have a service truck which can provide road-side assistance to our clients for break downs that may occur from time to time.

**NEJRABIAN INVESTMENT GROUP CORP. (OHIO, USA)**

## GROUP OF COMPANIES

---

### **NEJRABIAN INTERNATIONAL – TURKMENISTAN (TURKMANBASHI)**

Nejrabian International Turkmenistan (Turkmanbashi) is a specialist company that buys fuel from the Government of Turkmenistan's Birja- Turkmanbashi refinery. This fuel is then imported into Afghanistan and sold in the local market.

The company's strategy is to capitalize on solid relationships with partners in both Turkmenistan and Afghanistan with the goal of facilitating distribution of petroleum products from the oil-rich Turkmenistan to the rapidly growing market of Afghanistan.

The petroleum distribution business is staffed by professional managers, technical experts and logistics specialists, who work together effectively and efficiently to achieve the company's goals. All activities are carried out with strong emphasis on health, safety, environmental and social responsibility.
